KONE OFFICE FLOW

A smoother way to work

KONE Office Flow makes commuting smoother and seamlessly connects with your smart building's ecosystem.

A unique people-flow solution for workplaces that adds value and helps to differentiate your building.

1 ENJOY SMOOTH AND PERSONALIZED ACCESS

Provide touch-free access for tenants and visitors without compromising security.

2 DIFFERENTIATE WITH AN ENHANCED USER EXPERIENCE

Take advantage of visually appealing, user-friendly design to increase convenience and optimize people flow.

3 BUILD A SMART AND ADAPTIVE WORKPLACE

Maximize the lifetime value of your building and ensure it can adapt to tenants' changing needs.

KONE Destination

A destination control solution that combines distinctive design, and intuitive guidance for passengers. People with similar destinations are safely grouped together in the same elevator, with less crowding. This significantly increases convenience, reduces travel times, and assists in physical distancing
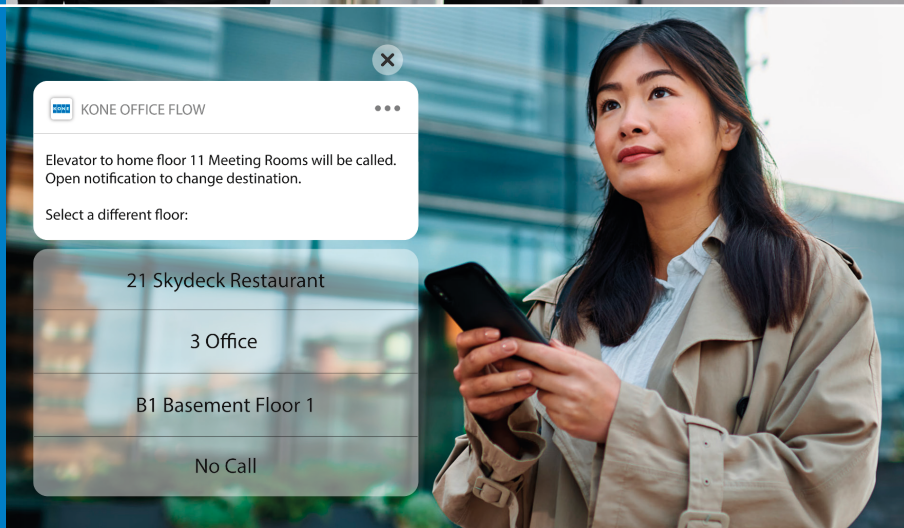

KONE Access

A built-in access control system that enables touch-free access for elevators and turnstiles without compromising security. KONE Access can be easily integrated with the building's access control system to simplify management.

KONE Mobile Experience

A smartphone app with predictive elevator call and access for employees and visitors. KONE Mobile Experience elegantly combines information on people's position, access rights, and preferred destination floors.

KONE

KEY BENEFITS

1 OPTIMIZED PEOPLE FLOW
Boost elevator system capacity, cut waiting times, and improve comfort with advanced destination control.

2 DISTINCTIVE DESIGN
Create a first impression that lasts with destination control devices built from high-quality and durable materials.

3 ADVANCED GUIDANCE
Help people reach their destination faster and easier with clear, effective guidance provided via user-friendly devices.

4 EASY INTEGRATION
Ensure smooth integrations in your building via cloud-based and on-site APIs.

5 UPGRADABILITY
Update and fine-tune your building's user experience and people flow to meet evolving demands without costly retrofits.

6 EASY VISITOR MANAGEMENT
Send invites and access keys via your smartphone and receive notifications when visitors arrive.

7 ROCK-SOLID SECURITY
Keep your data safe with secured site and cloud interfaces.
